Attention Exam Candidates:

NAB will transition its NAB (national) examinations to a new structure: examinees will need to pass a 110 item Core of Knowledge exam and a 55 item Line of Service exam. Please be advised that there will be a brief “blackout” period during this transition, in which no NAB or State exams will be administered. Examinees must either plan to take the appropriate NAB exam in its current form by June 17, or prepare to take the new NAB examination form after July 1. Candidate Handbooks, study guides, and reference lists will be revised in accordance with the new exam structure sometime this spring. Once these new resources become available, our office will send out additional information.

Effective **July 1, 2017**, candidates will be able to register for examinations through a new exam system at <https://nab.useclarus.com>. Per NAB, all candidate records from the current exam system will be transferred to the new exam system.
